

EMOSIS SAS announces the appointment of Aurore André as Emosis Ltd. CEO

Strasbourg, France and Tel-Aviv, Israel March 2017

Emosis SAS, gladly announces that Aurore Andre has joined the company in order to head the newly founded Israeli subsidiary Emosis Ltd. At this stage, Aurore will primarily set-up Emosis Ltd.

R&D capabilities, and enhance R&D cooperation with local academic scientific and medical institutions. Moreover, she will build up relations with industry partners, and secure co-financing. Aurore will also support Emosis corporate and digital communication.

Aurore is a business strategist and entrepreneur who comes with a strong background and knowledge of the Israeli biomedical environment. She spent several years working with Israeli Medtech, Biotech and international healthcare service providers in clinical development, business development, and managerial positions. In 2013, she founded Azapharm, a new generation consulting company specializing in market development for the healthcare industry players.

Quotes

“Aurore has the right blend of leadership, stamina and teamwork to make a great success of Emosis Ltd.” commented Frédéric Allemand.

“I am glad to take part in such a thriving human and scientific adventure. I will bring my energies, experience and knowledge to the benefit of Emosis and its mission, in order to build strong bridges with the ‘Start-Up Nation’” said Aurore.

About Emosis SAS

Emosis SAS, a French MedTech company founded early 2015 by Prof. Aaron Tomer and Dr. Frederic Allemand, to address largely unmet testing needs of patients presenting a broad range of conditions, such as cardiovascular and cerebrovascular diseases, cancer, pregnancy or surgical complications and complication of oral contraceptives, associated with bleeding and blood clotting disorders – hemostasis and thrombosis in medical parlance. Emosis uniquely applies, in a user-friendly way, the power of flow cytometry technology within the emerging paradigm of cell-based hemostasis - or cell-based coagulation, to enlighten medical decision of the physicians managing those patients.
